GIVING WOOD SPACES A NEW SKIN.

SKIN is a functional and versatile proposal that combine the culture of design with Xilia eco-tactile wood surfaces. The panels come with a 0,6mm real wood veneer skin empowered by Xilia stunning textures and finished with natural painting. The result is a pleasant touching surface with an amazing tactile experience equal to the naturalness of solid wood.

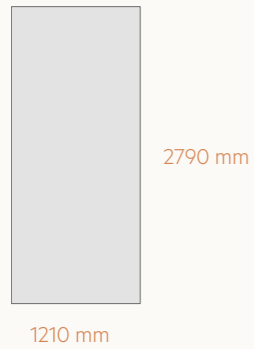

SKIN collection includes the best wood essences selected from the Xilia range, suggesting a precise aesthetic vision based on the colors of woods, to fully exploit the true essence of the surface. Ideal for wall coverings, ceilings and furnishings, SKIN provides an innovative tool for the world of design, architecture and the contract sector, responding to the values and needs of the most valuable interior projects.

TEXTURES

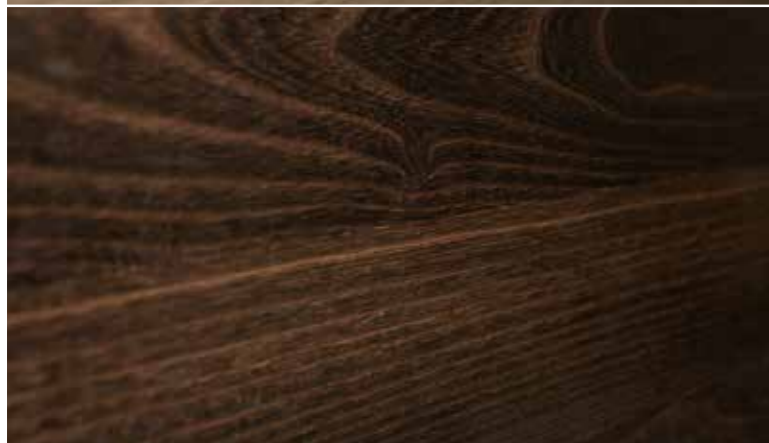

SOFT TOUCH

Light waves like the sea at sunset for a truly chill-out sensational tactile perception.

INTENSITY

● ○ ○ ○ ○ 1/5

LIGHT BRUSH

A delicate tactile effect, which naturally opens the wood's pore and shapes it in full compliance with the different surface densities.

INTENSITY

● ● ○ ○ ○ 2/5

DEEP BRUSH

A decidedly intense effect, which naturally opens the wood's pore and shapes it in full compliance with the different surface densities.

INTENSITY

● ● ● ○ ○ 3/5

SAW

The microporous surface is furrowed crosswise by more or less regular marks that convey a highly tactile and 'aged' look.

INTENSITY

● ● ● ○ ○ 3/5

SAND

An exclusive tactile sensation, as if the surface were blown with fine grains of sand.

INTENSITY

● ● ● ● ○ 4/5

WAVE

Very smooth nicks, like sand dunes, give a wavy look to the wood.
